

Maryland Comprehensive Cancer Control Plan
Implementation Reporting Tool

This tool is designed to assist the Maryland Cancer Collaborative and Department of Health and Mental Hygiene to collect success stories and records of the implementation of goals, objectives, and strategies from the Maryland Comprehensive Cancer Control Plan. The completion of this tool will assist staff to monitor and report on cancer prevention and control activities that are carried out in Maryland. Please share a project related to a goal, objective, or strategy from the Plan that you would like to highlight. Your project may be considered for future statewide recognition; if so, you will be contacted for more information.
